

WHAT'S GOING ON?

A series of public events with well-informed speakers on issues that are affecting us now and will determine how we live in the future!

MONDAY 19th MAY 6.00 for 6.30pm
BYRON SERVICES CLUB - 132 JOHNSON ST, BYRON BAY

RENEWABLE ENERGY PROJECTS AND THEIR IMPACT ON FARMING & BIODIVERSITY

INTRODUCED BY: MICHAEL WILLIAMSON

Saving the planet and costing us nothing, or a far darker story? In this important session we look at the true impact of the multi-billion dollar renewable energy projects being rolled out across regional Australia. We explore compelling video evidence of the devastating impact of these projects on both farming communities and pristine environments.

Join the discussion as we explore this important issue.

EXTREME WEATHER EVENTS AND GEO-ENGINEERING – CAN WE LESSEN THEIR IMPACT?

SPEAKERS: RUSTLE TAYLOR & JENNA FORD

Ongoing challenges from changing weather patterns and increasing toxic chemical loads in our environment, water and food are changing the way we live our lives. Do we have the technologies and tools to reduce these impacts? Explore some of the recent viable options now available with tools based on Wilhelm Reich's work on Orgone energy. These tools re-vitalise the energies in your local eco-system, rebalance weather patterns and can buffer us from the effects of weather modification. We'll hear about how these interventions work, what results are showing & where they are being used both here and overseas.

DO NOT MISS THIS EVENT

Please come along. Ask your questions. Get clear and factual information. Take action!

PLEASE JOIN THE RSL FOR ONLY \$5. OR SIGN IN AT THE DESK
